Hi Bri,

Thanks for accepting EPA's comments on the Petersen Ranch Final Prospectus a few days late. Following my visit to the site and reviewing the details in the Prospectus I don't really have a lot to comment on at this point in time. Because the document states that the Elizabeth Lake portion has not changed, I did not bother revising those comments, submitted on July 18, 2013, even though some of them have already been addressed through discussions on the IRT calls.

Thanks and have a nice long weekend!

Paul
